

**The University of North Carolina at Chapel Hill**  
**Report of the Faculty Athletics Representative for 2013-14**  
**Faculty Council**  
September 19, 2014

My annual report as the faculty athletics representative (FAR) accompanies the annual report of the Faculty Athletics Committee (FAC).

The general duties of the FAR at UNC are, pursuant to a position description approved by the Chancellor in September 2011, to serve as an advisor to the Chancellor and the Director of Athletics, and as a liaison to the faculty. My specific areas of focus are the academic success and academic integrity of student-athletes, compliance with ACC and NCAA rules, and a positive student-athlete experience. I also help represent the University at the ACC and participate in NCAA activities.

I have regular monthly meetings with

- the Chancellor;
- the Athletics Director;
- the Director of ASPSA, often together with Joy Renner and Abigail Panter; and
- I attend the Athletic Director's monthly meetings with the coaches.

My regular duties and activities as the FAR include the following:

- Ex officio member and secretary of the Faculty Athletics Committee;
- Ex officio member of the Educational Foundation Executive Board;
- Ex officio member of the Faculty Advisory Committee to the Academic Support Program for Student-Athletes (ASPSA);
- Ex officio member of the Committee on Special Talent of the Advisory Committee on Undergraduate Admissions;
- Ex officio member of the Licensing Labor Code Advisory Committee;
- Chair the Athletic Council (meets once or twice each year);
- Monitor the academic progress of student-athletes, report to the FAC data on the Academic Progress Rate (APR) and Graduation Success Rate (GSR) of our student-athletes, and consult on plans for improvement (a chart is attached showing a sample of this data over time and in comparison with other institutions);
- Meet with the Student-Athlete Advisory Committee;
- Serve on the group that reviews the uses and guidelines for the Student Assistance Fund;
- Serve on the committee that annually reviews the Department of Athletics' Drug Testing Policy for Student-Athletes;
- Serve on search committees or interview candidates for various positions in the Athletics Department and ASPSA;
- Review, with the Registrar and the Senior Associate Dean for Undergraduate Education in the College of Arts and Sciences, student-athlete enrollment and grade patterns;
- Support the university's compliance program regarding NCAA regulations;
- Participate in investigations of potential NCAA rules violations;

- Review and approve in conjunction with the Chancellor and/or the Director of Athletics institutional requests for waivers of ACC and NCAA rules;
- Be advised of and review secondary violations of NCAA rules;
- Administer the NCAA test on recruiting to all coaches annually;
- Evaluate NCAA legislative proposals and participate in ACC discussions;
- Represent the university in meetings of the ACC (as described more fully below).

Within the ACC, the chancellor/president, the director of athletics, the senior women's administrator, and the faculty athletics representative of each member school have the primary governance and operating responsibility. Conference by-laws direct that unless the chief executive officer is present, the faculty athletics representative shall be the voting delegate for the institution. As FAR, I participate in regular conference meetings in October, December, January/February, April, and May, and in any specific committee assignments. I serve on the ACC Finance Committee, the Constitution and By-Laws Committee, and the Women's Basketball Committee. As of July 1, 2014, I serve as the ACC's Secretary-Treasurer.

At the national level, I attended the Division I-A FAR Annual Conference in September 2013 and the NCAA National Convention in January 2014. The NCAA Board of Directors approved a dramatic revision of its governance structure in August 2014. One feature of the new governance structure is increased participation by student-athletes at the NCAA level. I have participated in discussions about how to increase student-athlete participation in governance issues at the institution level. I am pleased that student-athletes now regularly attend and contribute to the Provost's Working Group meetings and the meetings of FAC.

I participate in other activities as requested or needed. During the 2013-14 academic year, I participated as one of four faculty members on the Provost's Student-Athlete Academic Initiative Working Group to examine current practices, procedures, and policies affecting the academic success of student-athletes with the goal of developing a rigorous set of processes and metrics. I have also met with the Wainstein investigators and worked on joint investigations with the NCAA.

During the coming year we expect that investigations into the academic irregularities that involved student-athletes and other students will come to a close. This presents an opportunity for our institution to acknowledge the mistakes of the past, improve the processes relating to the academic experience of our student-athletes (through the Provost's Working Group and other efforts), and strive to ensure that our student-athletes are fully accepted as important members of our University community.

Joy Renner, chair of the FAC, and I stand ready to answer your questions, hear your concerns, and assist you as you teach our student-athletes.

Lissa Broome  
 Wells Fargo Professor of Banking Law, School of Law  
 Faculty Athletics Representative

**Academic Performance Measures – Student-Athletes  
UNC-Chapel Hill: Multi-year GSR, FGR, and APR**

For 2012-13, UNC-CH had six teams in the top 10% of their sport for APR:

- Women’s fencing (recognized every year – 9 times)
- Women’s golf (recognized every year – 9 times)
- Gymnastics (recognized 5 times)
- Rowing (recognized 2 times)
- Volleyball (recognized 8 times)
- Women’s tennis (first time recognized)

FGR, GSR, and APR are defined on the next page.

The information on these charts came from the NCAA websites listed below. I choose to present the results from only 4 of our 28 intercollegiate athletic teams, focusing on some of

the teams that might be in the public eye. Information on all other teams is publicly available. I would be happy to compile any additional information or comparisons that Faculty Council believes would be helpful.

**FGR** – Federal Graduation Rate. This graduation rate is reported by the Department of Education’s National Center for Education Statistics as part of the Integrated Postsecondary Education Data System (IPEDS). This metric is a six-year rate that includes students who received athletic scholarship aid in their first semester of enrollment. The federal graduation rate counts student-athletes who left the University in good standing prior to graduation as non-graduates. This data is available for student-athletes at an institution and for the student body so it is a way of comparing the performance of student-athletes with the student body.  
<http://fs.ncaa.org/Docs/newmedia/public/rates/index.html>

**GSR** – Graduation Success Rate. The GSR is an NCAA metric and is calculated for student athletes who received athletics aid. The GSR adds students who transferred into the institution to the group of first-year students who received athletics aid and also differs from the FGR in that schools are not penalized when a student-athlete leaves in good academic standing to transfer to another institution, pursue a professional career, or for any other reason. Under the FGR, such departures are counted as failures to graduate from the institution of original enrollment, even if the student later graduates from another institution. <http://fs.ncaa.org/Docs/newmedia/public/rates/index.html>

**APR** – Academic Performance Rate. This is an NCAA metric based on the academic eligibility, retention, and graduation of student-athletes receiving athletically related financial aid. Points are awarded each semester per student-athletes on the basis of eligibility/graduation and retention. Each team member may earn two points per semester: one point for maintaining eligibility or for graduation, and a second point for being retained. On a team with ten members, for instance, there would be a maximum of 40 possible points in an academic year. If two student-athletes on the team were not eligible in the spring semester and were not retained, then the hypothetical team would only earn 36 points (losing 2 points for each student during that spring semester). The APR in this hypothetical example is calculated by first dividing 36 by 40 (equals .9), and then multiplying by 1000 to get an APR of 900. In 2014-15, the threshold is a 4-year APR of 930 or 930 for the most recent two years, and for 2015-16 going forward the standard for postseason play is a four-year APR of at least 930.
