

Resolution 1998-23. Endorsing Participation by Staff and Students in Their Governance Institutions.

Introduced by the Chair of the Faculty

The Faculty Council resolves:

The faculty places great value on the participation of the Employee Forum, the Graduate and Professional Student Federation, and Student Government in the life of the University and supports members of the staff and students who wish to serve the University through active participation in these organizations. To that end, the Faculty Council urges supervisors and faculty advisors to give all appropriate support to staff and graduate and undergraduate students who wish to seek office in the Employee Forum, the GPSF, or Student Government.
